

RG104 E-1 Box 184
36 East 31st Street New York
Wednesday evening 6th Dec. 1893

Col. Boschee
Superintendent of the Mint

Dear Sir:

I have reported to
Mr. St. Gaudens as well
as I could our conversation
of this afternoon, and by
his direction I will send
to you by express tomorrow
morning, a bronze cast
of the reverse of the medal

to be used as a model for
the die - Mr St Gaudens
will begin work at
once on the two or three
different panels for the insets
which he will send to you
as soon as possible -

Mr St Gaudens is under
the impression that you
will only wish to work
on one model at a time,
and will go on with the

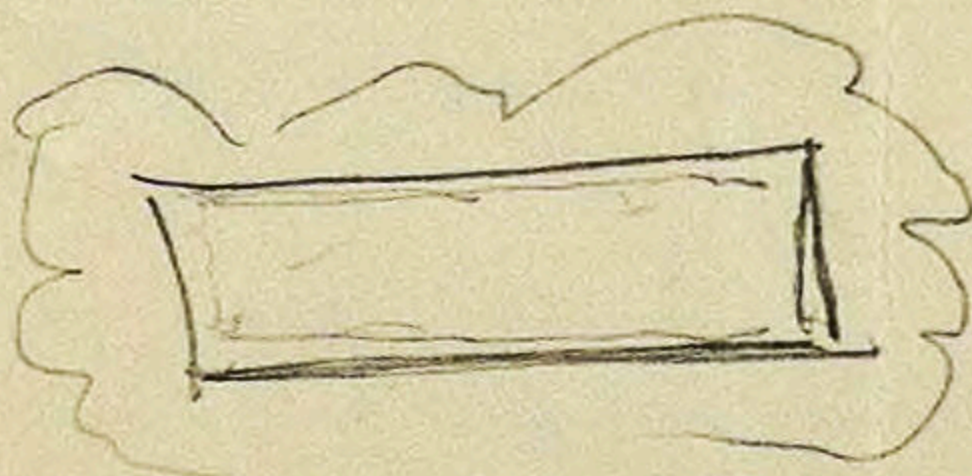

obverse, which he hopes to
send you satisfactorily
completed in about one
month - or five weeks.

He would be glad to know
as soon as convenient
the exact thickness of
the medal, the diameter
being agreed upon as
three inches.

The cast that I send
tomorrow is correct and
the one Mr St Gaudens wishes

to have copied, adding
only his designs for
the inserts which he'll
send as soon as he
can finish them -

Very respectfully
Joe Evans
